Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

This figure has been based on the following parameters:  
 Turbine layout file: LMONQUHILL007.WFL  
 Hub height: 81.9m  
 Rotor diameter: 136m  
 Height to blade tip: 149.9m
