

## Press Release

# RWE Secures Two Projects in Latest French Regulation Ground-Mounted Photovoltaic Bidding Round

- **RWE secures two out of the 103 photovoltaic projects awarded in the latest French regulation bidding round.**
- **The company secures a total capacity of 23.1 MWp (19.6 MWac).**

Essen, March 31<sup>th</sup> 2025

The French Energy Regulatory Commission (CRE) has just published the results of the latest ground-mounted photovoltaic tender (period 7 of the ground-mounted PV tender) for a total capacity of 925 megawatts (MW) at an average price of €79.09/MWh. Among the 103 awarded projects, two projects were granted to RWE, for a total capacity of 23.1 MWp (19.6 MWac).

**Katja Wünschel, CEO RWE Renewables Europe & Australia:** “This new success in the CRE auctions supports our growing presence in the French solar market. I would like to congratulate the RWE team, whose dedication and expertise are essential to achieving such results and supporting the energy transition.”

### **RWE continues its expansion in ground-mounted photovoltaic solar**

RWE continues its expansion in the solar energy industry with the successful award of two ground-mounted projects using fixed technology. The Gannat solar farm, located in the French department of Allier, will consist of 14,337 panels, delivering a total installed capacity of 7.9 MWp (6.3 MWac). The Pimorin project, in the Jura department, further strengthens the Group's presence in the Bourgogne-Franche-Comté region, where it is already active through the Allerey wind farm in the Côte-d'Or department. The Pimorin project will generate 15.2 MWp (13.3 MWac) from 27,702 modules.

Since entering the French market at the end of 2020, RWE has commissioned 176 MW and is currently developing more than 1.7 GW of onshore wind projects and nearly 1.1 GWp of solar projects.

# RWE

## **RWE**

RWE is leading the way to a green energy world. With its investment and growth strategy Growing Green, RWE is contributing significantly to the success of the energy transition and the decarbonisation of the energy system. Around 20,000 employees work for the company in almost 30 countries worldwide. RWE is already one of the leading companies in the field of renewable energy. RWE is investing several billion euros worldwide in offshore and onshore wind, solar energy, batteries, flexible generation, and hydrogen projects. RWE is decarbonising its business in line with the 1.5-degree reduction pathway and will phase out coal by 2030. RWE will be net-zero by 2040. Fully in line with the company's purpose - *Our energy for a sustainable life.*

## **RWE Renouvelables France**

A subsidiary of the RWE, RWE Renouvelables France is one of the leading developers and producers of renewable energies on the French market. With 270 employees throughout France, our teams develop, finance, build and operate wind and solar farms. The company is currently developing over 1,7 GW of onshore wind projects, 1,1 MWp of solar projects and has commissioned 176 MW.

## **Forward-looking statements**

This press release contains forward-looking statements. These statements reflect the current views, expectations and assumptions of management, and are based on information currently available to management. Forward-looking statements do not guarantee the occurrence of future results and developments and are subject to known and unknown risks and uncertainties. Actual future results and developments may deviate materially from the expectations and assumptions expressed in this document due to various factors. These factors primarily include changes in the general economic and competitive environment. Furthermore, developments on financial markets and changes in currency exchange rates as well as changes in national and international laws, in particular in respect of fiscal regulation, and other factors influence the company's future results and developments. Neither the company nor any of its affiliates undertakes to update the statements contained in this press release.
