

## Press Release

# RWE Secures 151 Megawatts at French Regulatory Energy Commission Latest Bidding Round

- Amongst the 7 awarded projects, 5 are fully owned by RWE, one is co-developed with Vent du Nord and another one with Escofi.
- This result positions RWE as the top awardee in the latest auction, ahead of 22 other selected companies.
- This new success, following the two projects awarded during the most recent solar auctions, further strengthens RWE's position as a leading player in the French market.

Essen, April 9<sup>th</sup> 2025

The French Energy Regulatory Commission (CRE) has just published the results of the latest onshore wind bidding round for a total capacity of 930 megawatts (MW) at an average price of €87.61/MWh. Seven projects have been awarded to RWE, representing a prorated capacity of 151 MW and a total capacity of 183 MW. Among these projects, five are fully owned by RWE, while two are being co-developed—one with Vent du Nord and the other with Escofi.

**Katja Wünschel, CEO RWE Renewables Europe & Australia:** “I would like to extend my congratulations to all the teams who contributed to RWE's success in the latest French tender. This great result once again reflects the strength of our strategy, made possible by our experienced team and the quality of our project pipeline.”

### A diversified portfolio

The seven awarded projects will add 35 wind turbines across four regions in France—Centre-Val de Loire, Grand Est, Hauts-de-France, and Normandy—further enhancing the geographical diversity of RWE's development pipeline. The first turbines could be commissioned as early as 2027, with additional installations expected through 2028.

## **RWE**

RWE is leading the way to a green energy world. With its investment and growth strategy Growing Green, RWE is contributing significantly to the success of the energy transition and the decarbonisation of the energy system. Around 20,000 employees work for the company in almost 30 countries worldwide. RWE is already one of the leading companies in the field of renewable energy. RWE is investing several billion euros worldwide in offshore and onshore wind, solar energy, batteries, flexible generation, and hydrogen projects. RWE is decarbonising its business in line with the 1.5-degree reduction pathway and will phase out coal by 2030. RWE will be net-zero by 2040. Fully in line with the company's purpose - *Our energy for a sustainable life*.

## **RWE Renouvelables France**

A subsidiary of the RWE, RWE Renouvelables France is one of the leading developers and producers of renewable energies on the French market. With 270 employees throughout France, our teams develop, finance, build and operate wind and solar farms. The Group is currently developing over 1,7 GW of onshore wind projects, 1,1 MWp of solar projects and has commissioned 176 MW.

## **Forward-looking statements**

This press release contains forward-looking statements. These statements reflect the current views, expectations and assumptions of management, and are based on information currently available to management. Forward-looking statements do not guarantee the occurrence of future results and developments and are subject to known and unknown risks and uncertainties. Actual future results and developments may deviate materially from the expectations and assumptions expressed in this document due to various factors. These factors primarily include changes in the general economic and competitive environment. Furthermore, developments on financial markets and changes in currency exchange rates as well as changes in national and international laws, in particular in respect of fiscal regulation, and other factors influence the company's future results and developments. Neither the company nor any of its affiliates undertakes to update the statements contained in this press release.
