

Head of Governance, Standardisation & IT

Anja Dubbert

Anja has held various positions in the RWE-Group since 2002.

She started her career at RWE Gas AG. Until 2010, she worked in various RWE companies and was able to gain further experience and expand her professional expertise.

From 2010, she was initially employed as 'Originator' and subsequently as 'Business Development Manager' at RWE Supply & Trading.

In 2023, she moved within the Group to RWE Technology International to set up the Project Management Office (PMO).

As Head of Governance, Standardisation & IT, she and her team are responsible for providing cross-divisional services for PMO, resource management, cost estimation, project controlling, information management and scheduling, thus providing optimum support for projects.

1 What gives you most satisfaction in your work?

The variety of activities and the exchange with an international team - no two days are the same.

2 Why did you choose RWE TI?

The projects of RWE Technology International support the transformation of the RWE Group and are a sustainable contribution to RWE's 'Growing Green' strategy. The variety of projects and the ambitious goals are an exciting new challenge after more than 20 years in the RWE Group in other business segments.

3 What three words best describes you?

Motivating - Inspiring - Persistent

4 „Our aim is your success.“

For me, this message means that my team and I want to provide our diverse projects with the best possible support so that their project goals in terms of time, quality and cost can be achieved. We are always thinking about what we can improve to make this even more efficient, faster and more cost-effective.
