

Head of Business Solutions

Bernhard Wurm

Bernhard has been working in the international energy sector for more than 10 years and has worked in various companies in the area of strategy consulting.

He has worked on complex projects worldwide and has always had a clear focus on delivering complex projects for clients. His experience includes also two years in the mining sector.

Bernhard completed his degree in physics at the University of Bonn, which gave him a solid technical background.

As Head of Business Solutions, he is responsible for sales and the implementation of projects for internal and external customers, working closely with Engineering Support during project realisation.

Bernhard directly manages the project and engineering teams in the areas of management of the old abandoned mine sites, land reclamation, nuclear services and mining & materials handling within the Business Solutions structure.

1 What gives you most satisfaction in your work?

I like the combination of strategic sales and successful project realisation. It motivates me to develop innovative solutions together with our customers and then turn them into reality with strong teams.

2 Why did you choose RWE TI?

I chose RWE TI because I am enthusiastic about the combination of an international environment, technological diversity and entrepreneurial scope. The opportunity to realise innovative energy projects for our customers with a highly competent team makes the job particularly exciting for me.

3 What three words best describes you?

Problem solver - Determined - Team player

4 „Your challenge is our passion!“

For me, this message means that anyone can solve simple tasks - the really complex ones are best left to RWE TI. With the combined expertise of RWE TI and the know-how of the RWE-Group, we develop innovative solutions for even the most demanding challenges.
