

Press release

RWE successful with two onshore wind projects in Italian auction

- In total 93 MW of onshore wind capacity awarded to RWE
- Wind farms to be installed in Basilicata and Apulia regions
- Start of construction planned for second half of 2025, commissioning planned in 2026

Essen/Rome, 26 March 2025

Two RWE wind farms were successful in the latest Italian renewables auction: the 45 megawatt (MW) Venusia wind farm located in the province of Potenza, Basilicata region and the 48 MW Serra Palino wind farm located in the province of Foggia, Apulia region. The start of construction is planned for the second half of 2025, with commissioning planned for next year.

Katja Wünschel, CEO RWE Renewables Europe & Australia:

“Onshore wind is a main pillar of Italy’s energy transition and RWE’s growth strategy. With this success, we are adding two more major wind farms to our already strong Italian onshore wind portfolio. We look forward to realising Venusia and Serra Palino wind farms – the next milestones in our journey to support a clean, stable and cost-effective energy future for Italy.”

RWE Renewables Italia – strong presence in Italian market for renewables

RWE is a key player in the Italian renewables market. The company takes an integrated project approach that incorporates the development, construction and operation as well as marketing of wind farms and solar plants. The company draws on its extensive experience to drive forward its business in Italy. As of today, RWE operates 16 onshore wind farms with a combined installed capacity of 527 MW in the country. With its onshore fleet, RWE supplies around 450,000 Italian households with green electricity every year. In addition RWE recently commissioned its first Italian solar plant [Bosco](#) (8.3 MWac) in Sicily. In addition to the soon-to-be-constructed Venusia and Serra Palino wind farms the company is currently constructing 53 MW [Mondonuovo](#) wind farm in Apulia Region and its first commercial scale [Agri-PV plants](#) Morcone (9.8 MWac) and Acquafrèdda (9.3 MWac) in Campania Region.

RWE

RWE is leading the way to a clean energy world. With its investment and growth strategy Growing Green, RWE is contributing significantly to the success of the energy transition and the decarbonisation of the energy system. Around 20,000 employees work for the company in almost 30 countries worldwide. RWE is already one of the leading companies in the field of renewable energy. RWE is investing billions of euros in expanding its generation portfolio, in particular in offshore and onshore wind, solar energy and batteries. It is perfectly complemented by its global energy trading business. RWE is decarbonising its business in line with the 1.5-degree reduction pathway and will phase out coal by 2030. RWE will be net zero by 2040. Fully in line with the company's purpose - Our energy for a sustainable life.

Forward-looking statements

This press release contains forward-looking statements. These statements reflect the current views, expectations and assumptions of management, and are based on information currently available to management. Forward-looking statements do not guarantee the occurrence of future results and developments and are subject to known and unknown risks and uncertainties. Actual future results and developments may deviate materially from the expectations and assumptions expressed in this document due to various factors. These factors primarily include changes in the general economic and competitive environment. Furthermore, developments on financial markets and changes in currency exchange rates as well as changes in national and international laws, in particular in respect of fiscal regulation, and other factors influence the company's future results and developments. Neither the company nor any of its affiliates undertakes to update the statements contained in this press release.
